

Program

Roadmap of Research— from your clinical problem to publication

Interactive workshop for the planning, monitoring and publishing of
professional and clinical research projects

January 27–28, 2012 Dubai, United Arab Emirates

Home to Trauma & Orthopaedics

Roadmap of Research

Why should I attend?

The Roadmap of Research workshop teaches the theoretical background and the practical implementation of the different phases of a research project. Our program gives you the chance to meet with internationally recognized experts, network with colleagues and share experience. Individual sessions with the lecturers at the end of each day offer a unique opportunity to get professional advice on your particular research idea/project.

Who should attend?

The Roadmap of Research workshop is an ideal learning platform for physicians interested or involved in the planning, realization, and publication of a research project.

Accreditation

The Roadmap of Research workshop will be accredited by the Dubai Health Authority; certificates will be handed over to the delegates at the end of the completed workshop.
